

Welcome to Julie & Nilles electrospectromatomatic sound walk!

- There is a total of 8 points on the one-way walk through the most vibrant part of Aarhus city!
- Follow the points from 1 (inside Rema 1000) to 8 (near Aarhus Cathedral). When you have reached point 8, you are free to go wherever you wish.
- If you get lost during the trip, feel free to ask for directions at the nearest police station, since they are always ready to help.

- 1: At the milk department of the store, there is a milk shelf with photos of cows. If you stick your head in the cooling disc, you will hear them moo... Its not a joke!
- 2: This is a panel for peoples door buzzer. Its just "right" of the Italian "Manu" icecream store.
- 3: This is a Jyske Bank ATM machine on your right when you are facing north!
- 4: Is a electricity box infront of a EDC realtor.
- 5: This place might be tricky to find. You have to go down to "Busgaden", then in the eastside of the tunnel you will find a door (there is probably a lot of people waiting for the bus here). When you have entered the door, you will see an elevator on your left! Enter the elevator on go to the fourth floor. Make sure to have your headphones on throughout all of the elevator ride.
- 6: The passage!
- 7: Sit on a bench infront of the church (preferably one of those which is far away from the church). Sit, turn on your phones and look at the church..
- 8: When you are done sitting on the bench, go to the Nordea bank and hear the fancy LED light comercial.
